**WATER RESISTANCE GRADE
DEFINITIONS**

GENERAL WATER RESISTANCE: A watch that on the case back is stamped "Water Resistant" and nothing else (no number).

This watch is NOT water resistant in the following cases:

- professional deep water diving;
- recreational SCUBA diving;
- bathing,
- swimming,
- snorkeling,
- hot-tubbing.

It does have sufficient water resistant characteristics for:

- being out in the rain
- washing one's hands.

HIGH GRADE WATER RESISTANCE: The case back will be marked "Water Resistant 50m"(eters).

This watch is NOT water resistant in the following cases:

- professional deep water diving;
- recreational SCUBA diving;
- hot-tubbing, bathing.

It is water resistant for

- swimming,
- snorkeling,
- being out in the rain
- washing one's hands.

DIVERS WATCH: The case back will be marked "Water Resistant 100m"(eters).

This watch is NOT water resistant in the following cases:

- professional deep water diving.

It is water resistant for

- recreational SCUBA diving;
- hot-tubbing,
- bathing;
- swimming;
- snorkeling;
- being out in the rain
- washing one's hands.

PROFESSIONAL DIVERS WATCH: The case back will be marked "Water Resistant 300m"(eters) and up.

This watch* is water resistant for

- professional deep water diving;
- recreational SCUBA diving;
- hot-tubbing, bathing;
- swimming;
- snorkeling;
- being out in the rain
- washing one's hands.
